SUMMARY

Android Developer specializing in Kotlin, Jetpack Compose, and MVVM Architecture. Experienced in Clean Architecture, REST API integration, Firebase, and scalable mobile application development with optimized UI and modular design principles.

TECHNICAL SKILLS

- Languages: Kotlin
- Android: Jetpack Compose, XML, Android SDK
- Architecture: MVVM Architecture, Clean Architecture, Repository Pattern, SOLID Principles
- Networking: Retrofit, REST APIs
- Database: Room Database, Firebase
- Concurrency: Coroutines, Flow, StateFlow
- Dependency Injection: Hilt, Dagger
- Tools: Git, GitHub, Android Studio

EXPERIENCE

Android Developer Intern | Vanisb Technology | June 2025 – December 2025 | New Delhi, India

- Improved code maintainability by 30% by implementing MVVM Architecture using Kotlin.
- Integrated REST APIs and Firebase services, reducing real-time data latency by 25% and enhancing app responsiveness by 20%.

Android Developer Intern | IoT Websolutions Pvt. Ltd. | January 2024 – March 2024 | New Delhi, India

- Developed Android applications using Kotlin following clean coding standards and best practices.
- Implemented Git-based version control workflows and collaborated with designers to deliver intuitive mobile interfaces.

PROJECTS

CareBuddy – Medical & Emergency Assistance Application

- Developed a healthcare Android application using MVVM and Clean Architecture with Jetpack Compose.
- Integrated REST APIs and Firebase backend services for real-time data management.

My Wallet – Cryptocurrency Portfolio Application

- Built a real-time cryptocurrency tracker with API-based market data integration and modular MVVM design.

Video Chat & Reels Application

- Implemented low-latency video communication using WebRTC and Firebase with optimized Compose UI.

EDUCATION

Master of Computer Applications (MCA) | The NorthCap University | Expected July 2026 | Gurugram, Haryana

Bachelor of Computer Applications (BCA) | 2021 – 2024 | New Delhi, India

CERTIFICATIONS

- Android Development Certification
- JPMorgan Chase & Co. – Software Engineering Virtual Experience (Forage)
